

RICHMOND, VA., SUNDAY MORNING, NOVEMBER 10, 1907.

A Welsh Rabbit

RESOLVED
THAT WELSH RABBITS ARE NOT VERY
IMPORTANT ANYHOW. IT WOULD BE
BETTER FOR STOMACHS IF THERE WAS
NONE (AND THATS CORRECT) WELSH.
RABBITS I MEAN. I DONT MEAN WELSH
RABBITS ARE CORRECT, I MEAN WAS NONE
IS CORRECT, BECAUSE NONE IS SINGULAR.
IT IS ALSO SINGULAR HOW PEOPLE
WILL SIT UPNIGHTS AND EAT RABBITS
AND DRINK AND LOSE SLEEP, THEN
TROT OFF TO A DOCTOR TO FIND OUT
WHAT AILS THEM. HE SAYS THEY NEED
A CHANGE OF AIR; SO THEY GO TO PALM
BEACH AND EAT MORE RABBITS. AN
OUNCE OF PREVENTION IS WORTH A
POUND OF CURE B.B
